Re: Clarification Regarding Matt's Application – 200 Jamieson Parkway Unit 111

Hi Gabe & Joe

Thank you for your patience, and I apologize for the delay while I coordinated references. Over the past several months my focus has primarily been on medical recovery and keeping my circle fairly small, so it took a little longer than usual to reach people and confirm they were comfortable being listed.

I'm happy to clarify the questions regarding my application below.

Self-Employment

For several years I operated a small automotive fabrication and restoration shop in Cambridge. Over the past couple of years my health declined and I gradually stopped taking on regular customer work.

On June 26, 2025 I experienced a sudden medical emergency that required surgery and a prolonged recovery period. Since that time I have not been physically able to return to my fabrication work.

Commercial Rent

The $1500 commercial rent listed in the application is the all-inclusive monthly cost for the workshop/storage unit where my automotive tools, equipment, and project materials are currently stored.

As my health situation developed I began winding down the business by selling equipment and consolidating what remains. The space is now primarily being used to organize and clear out the remaining items.

My intention is to exit that month-to-month lease once the remaining equipment and materials are cleared.

Current Income / Support

At the moment my living expenses are supported through disability income and personal savings while I continue recovering medically. These supports will be ongoing and lifelong. I live fairly modestly and my expenses are manageable.

As noted in the application, Kellsie would be the leaseholder responsible for the tenancy.

Vehicle / Parking

I do own a vehicle, however it is not currently registered for road use while I am undergoing medical treatment. My earlier question regarding parking was simply to understand the building's parking policies for accessibility and future planning.

Identification

For your records, two pieces of identification are included below.
Please let me know if there is anything further you would like clarified. If it's easier, I'm also happy to discuss anything by phone.

Thank you,

Matthew Herbert
